

an attractive, low-profile telephone to match the decor of the most modern home or office. Table or wall-mounted versions available in a superb choice of colours.

PHILIPS

Check out Some of the KT1 Features

Styled for the way you communicate today the Philips KT1 fully electronic telephone comes in a range of attractive colours — light grey stone, mid-brown and red.

Practical layout

Designed for easy operation at home or in the office, the KT1 telephone is equally useful as a table or wall-mounted instrument.

Variable tone volume

To ensure that every user can set the pleasant sounding tone-caller to the strength preferred, KT1 has a conveniently positioned volume control. A further reduction in volume of 10 dB, across the whole control range, is obtained by a simple adjustment of an internal link.

Microchip technology

For the highest possible level of reliability the KT1 incorporates the latest single-chip electronic circuitry

Brief specification

■ Available in two versions: loop-disconnect (with ten-key keypad) and MF (12 keys).

- Line powered — no internal batteries needed.
- Maximum calling-signal level: 80 dBA at one metre.
- Send and receive sensitivities set at internationally accepted levels and electronically controlled.
